

On behalf of our client, a leading Internet Company in Berlin specialized in online advertisement, we are currently accepting resumes for the following professional opportunity:

To develop the platform and make use of their huge amount of data, the client is looking for a Python and JavaScript Developer to strengthen their team.

YOUR RESPONSIBILITIES

- Depending on your skills and competencies you will be either working in the Front or Back End
- As Front End Developer combine the requirements of the company into one Front End solution and

assess and optimize the pages' performance and effectiveness

- Work closely with the Back End to understand the needs and implement them in the Front End
- As Back End Developer develop, optimize and standardize the project

- Work closely with the Project Management team

YOUR PROFILE

- Professional experience with Python and JavaScript
- Hands on experience with Relational Databases (such as MySQL, SQL, PostgreSQL)
- Experience in working on Linux and / or MacOS systems
- Solid knowledge of Version Control
- Ideally experience with PostgreSQL but not mandatory
- Affinity with Test Driven Development and automatic deployment
- Ability to work in a team
- Quality conscious and detail oriented
- Willing to learn

OUR OFFER

- Dynamic working environment
- Flat hierarchies
- Room for growth and learning new skills
- Work / Life balance
- Annual salary not disclosed
- Full time and long term contract

CORE CONDITIONS

- up to 50.000,- € annual gross wage
- long term contract
- potential relocation support

ADDITIONAL CONDITIONS

- low cost of living in Berlin
- most companies use cutting edge technologies which is a bonus for developers seeking to gain experience and boost their CV
- highly interconnected companies which easily supports the flow of employees
- countless IT related events and fairs
