On behalf of our client, a leading Internet Company in Hamburg, we are currently accepting resumes for the following professional opportunity:

The company is looking for a Project Manager for the development and management of credit processing software and workflow. Working with several corporate departments this position provides a high level of responsibility.

YOUR RESPONSIBILITIES

• Responsibility for loan processing software

• Execution of functional and needs analysis

• Coordination between development, QA and functional teams (Risk, Data Science, Operations, Marketing)

• Development of IT supported processes to optimize and adapt to daily operations

•Specification and coordination in the development of the new functions and processes for loan processing workflows

•Close cooperation and coordination with Country Management in relation to the introduction of the loan processing workflow in new countries

•Development of strategies for data integration and data from different company departments via ETL (customer care, debt collection, marketing, etc.)

YOUR PROFILE

•Computer Science degree or equivalent engineer qualification

•3+ years of expertise in project management of a tech/internet company

•Hands-on expertise in project management methods and tools (Jira, Scrum, Kanban, etc.)

•Excellent knowledge of functional analysis and specifications

•Extensive experience in Remote Project Management (Eastern Europe)

•Fluent English required

•Willingness to quickly and easily integrate in a diverse international team

OUR OFFER

•Wonderful workplace in Hamburg

•Annual salary not disclosed

•Full time and long term contract

You think this is the job for you? Send your CV and cover letter in English now to: empleo@itechcareer.com

Thanks!
