Developers

Proper's mission is to build the tools necessary to empower humankind to fix the world's buildings.

Our apps simplify communication around property maintenance for landlords, tenants and contractors so that getting it fixed is a fast and joyful experience. Check us out here: https://proper.chat/

Proper is seeking a seasoned mobile developer well experienced with Android and a working knowledge of iOS to join our engineering team. We are looking for someone that has strong experience developing user interfaces for applications on Android using Android SDK. If you are interested in joining a world-class team that is passionate about crafting products, we look forward to hearing from you soon!

Responsibilities

 Collaborate with Product Designers and Product Owner to deliver compelling

consumer-facing products on the Android Platform

 Oversee improvements and updates to the core Android applications architecture

including the migration to Kotlin from Java.

 Balance new feature & UI work with refactoring, code improvements, etc.

ADDITIONAL CONDITIONS

• most companies use cutting edge technologies which is a bonus for developers seeking to gain experience and boost their CV

• highly interconnected companies which easily supports the flow of employees

• countless IT related events and fairs

You think this is the job for you? Send your CV and cover letter in English now to: empleo@itechcareer.com

Thanks!
